Our School – A Brief Introduction

The Arts & Technology Education Centre was formerly known as the Practical Education Centre, which was established by the government in 1986. The Centre was renamed the Arts & Technology Education Centre in 2004. The medium of instruction is mainly Chinese. But for courses attended by non-Chinese speaking students, English is used. The Centre now offers arts and technology education to students from schools without the facilities or teachers.

In 2009-2010, 11 partner schools send their students to study in this Centre. Most of the courses are for Secondary 1 – 3. This year, NSS Music courses are offered to 55 students from 13 government secondary schools and 1 direct subsidy school. Visual Arts courses are also offered to senior secondary level. The Applied Learning courses first introduced in 2005 now offer 4 courses to secondary 5 students.

Our Centre has 26 fully equipped air-conditioned teaching areas. These include 3 technology laboratories, 7 workshops for Design & Technology, 7 Visual Art Rooms, 8 Home Economics Rooms, 1 music room, 1 Information Technology Resource Centre, and a Multi-purpose Area (MPA) to facilitate quality learning and teaching in the Centre.
